

New Hires iPad App v1 Mockups

Campus Tour

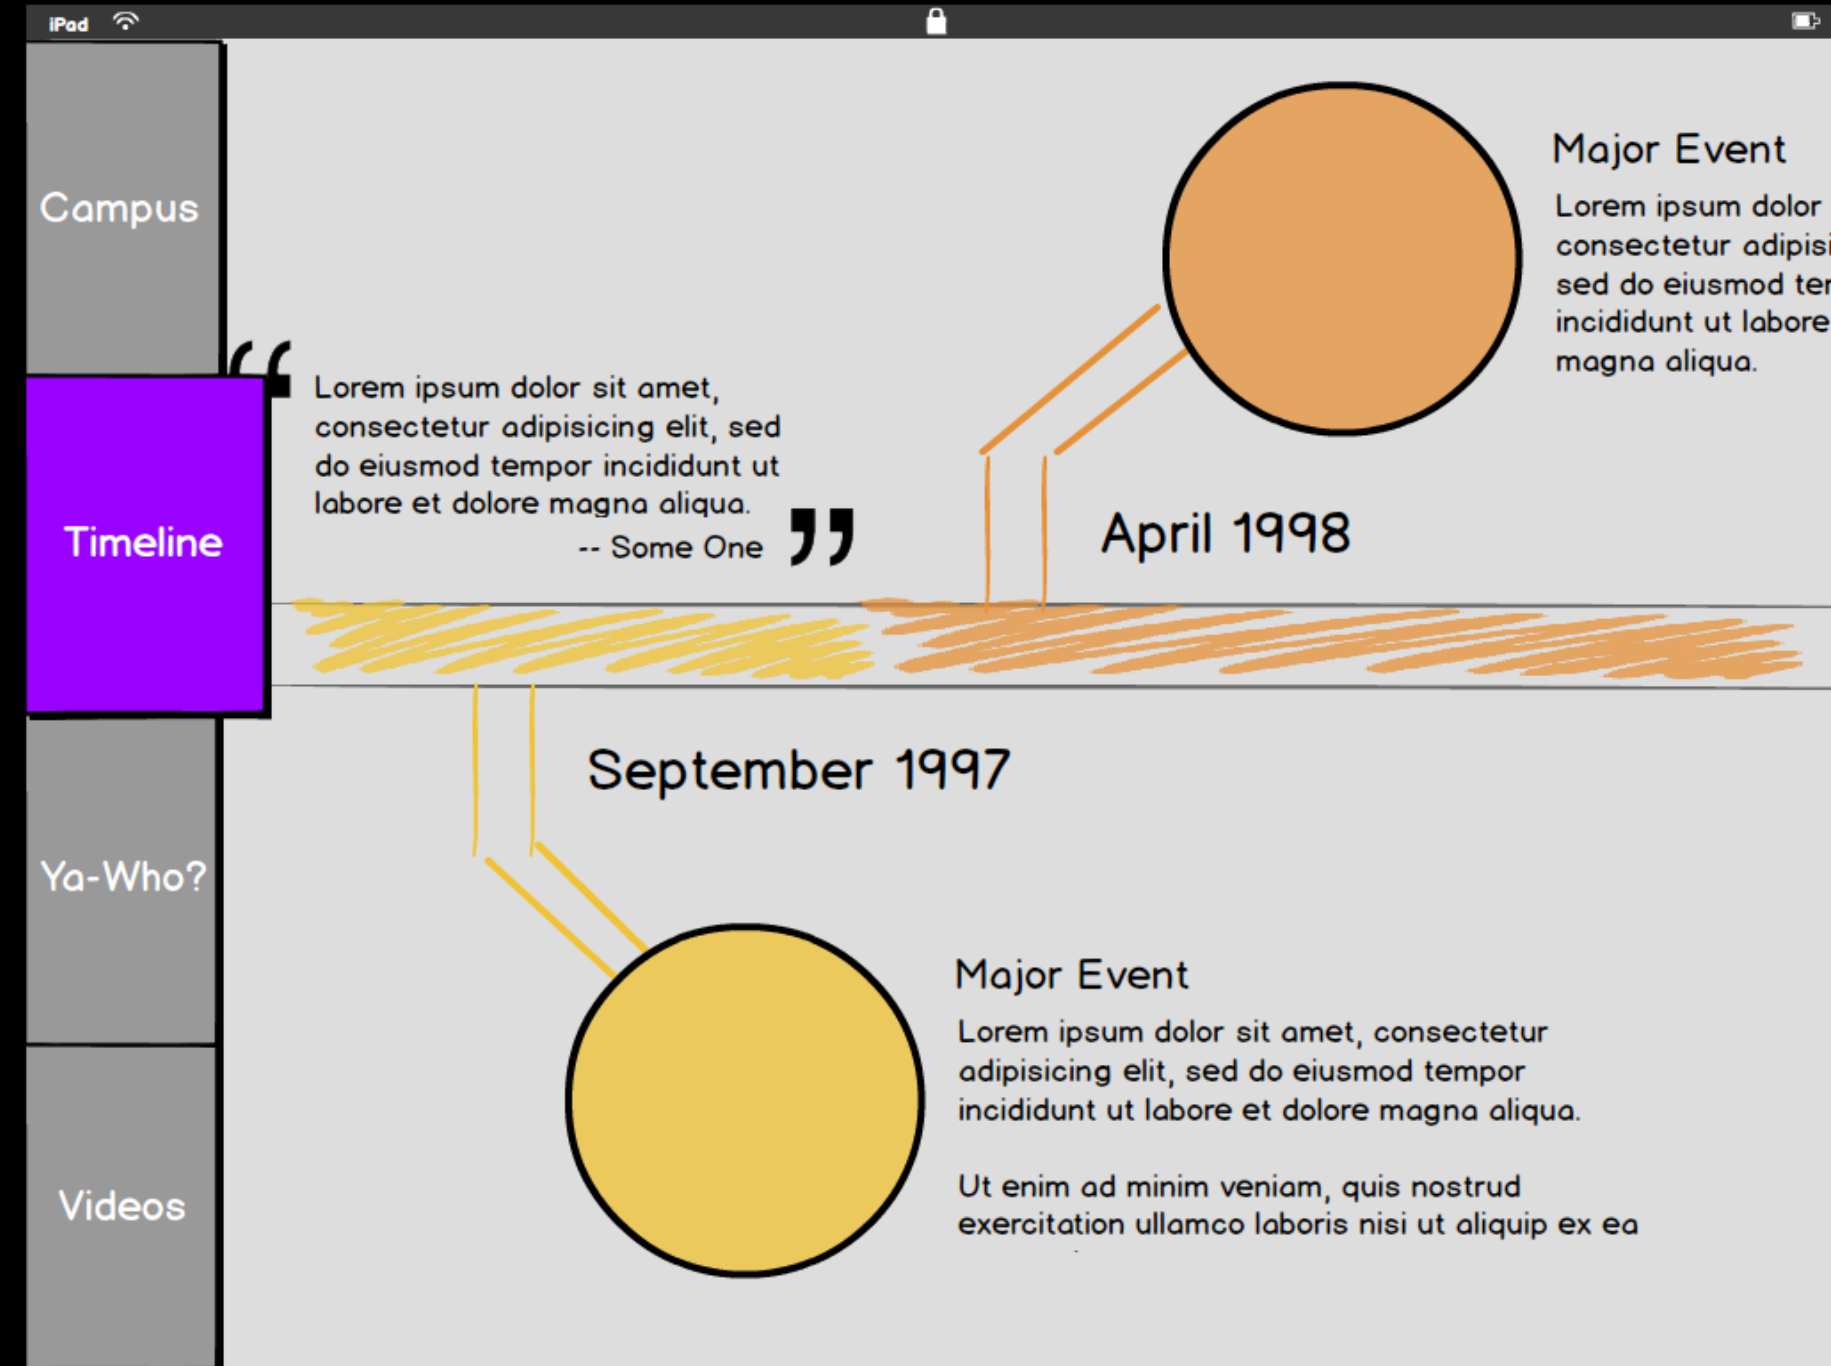

Design Note:

The background should be a very high quality shot of the building overlaid with a subtle gradient on the right & bottom to make the text very clear.

Interaction Note:

The user will be able to see all the buildings labeled on the bottom-right map. Clicking on any other building will navigate the user to that location.

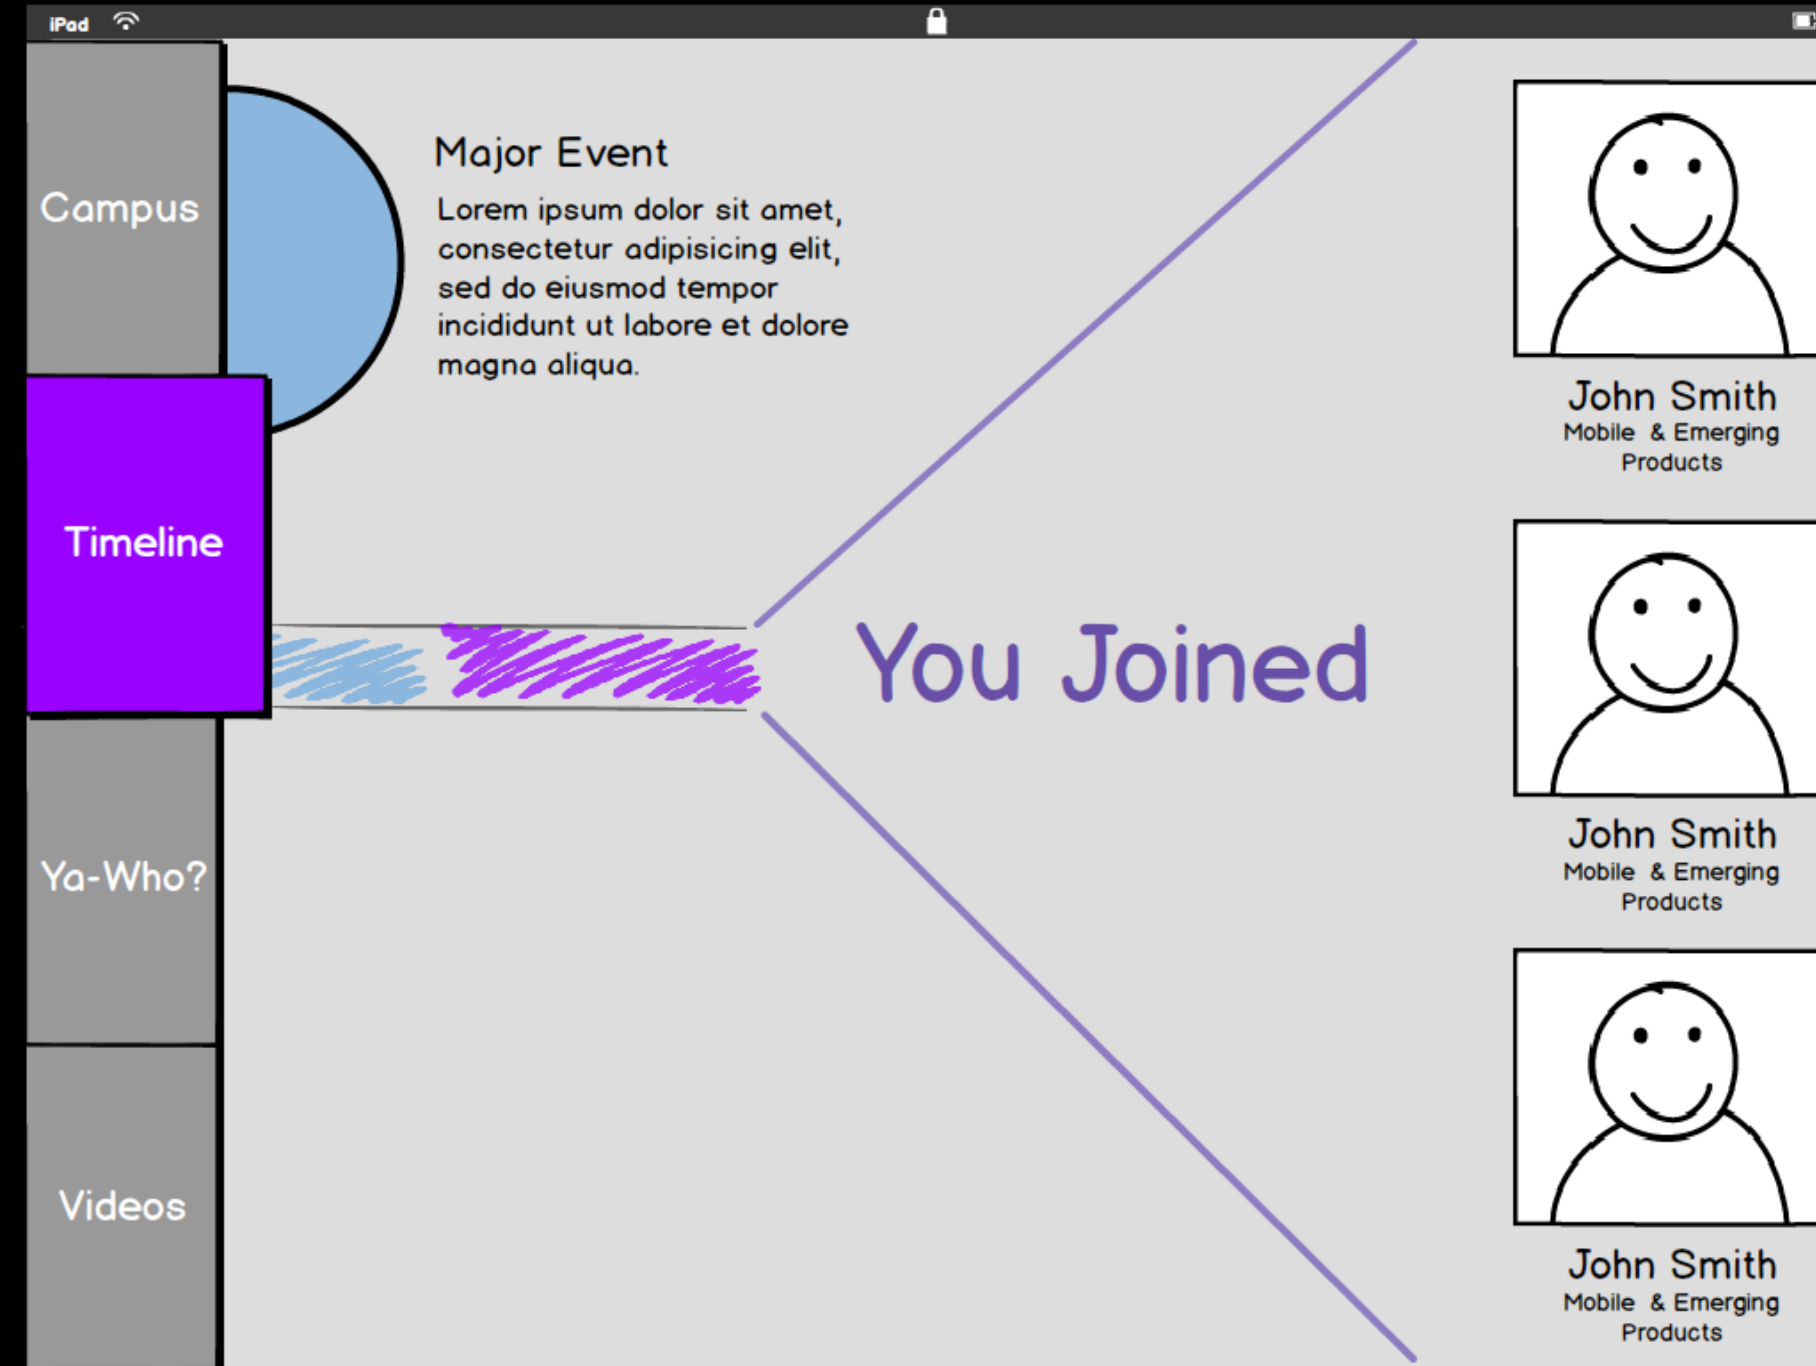

Timeline

Interaction Note:

The user will be able to swipe the timeline left/right to navigate through the dates.
Certain elements may be clickable (e.g., images, articles, videos).

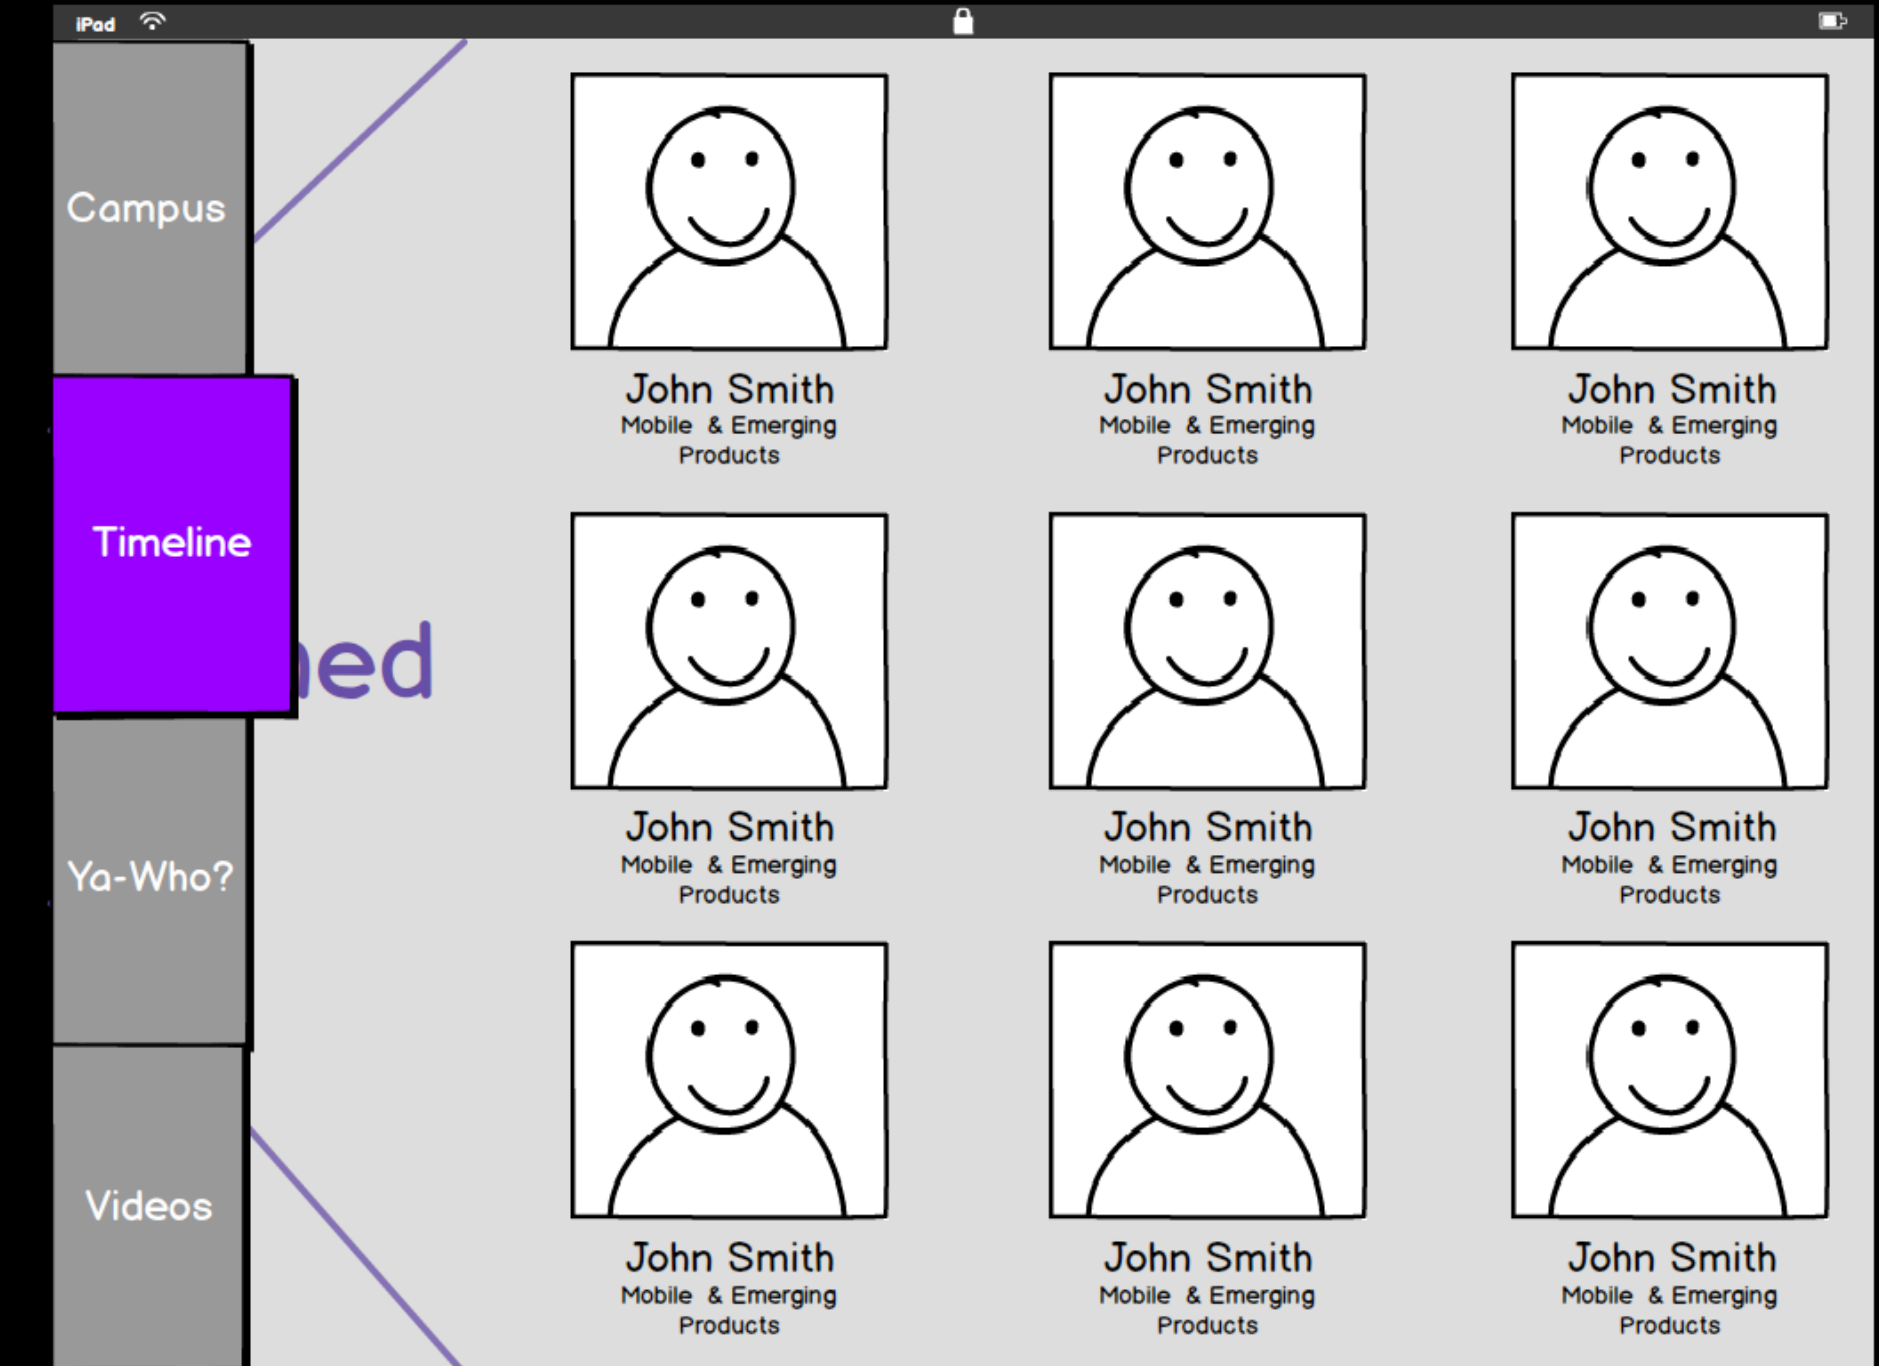

Timeline

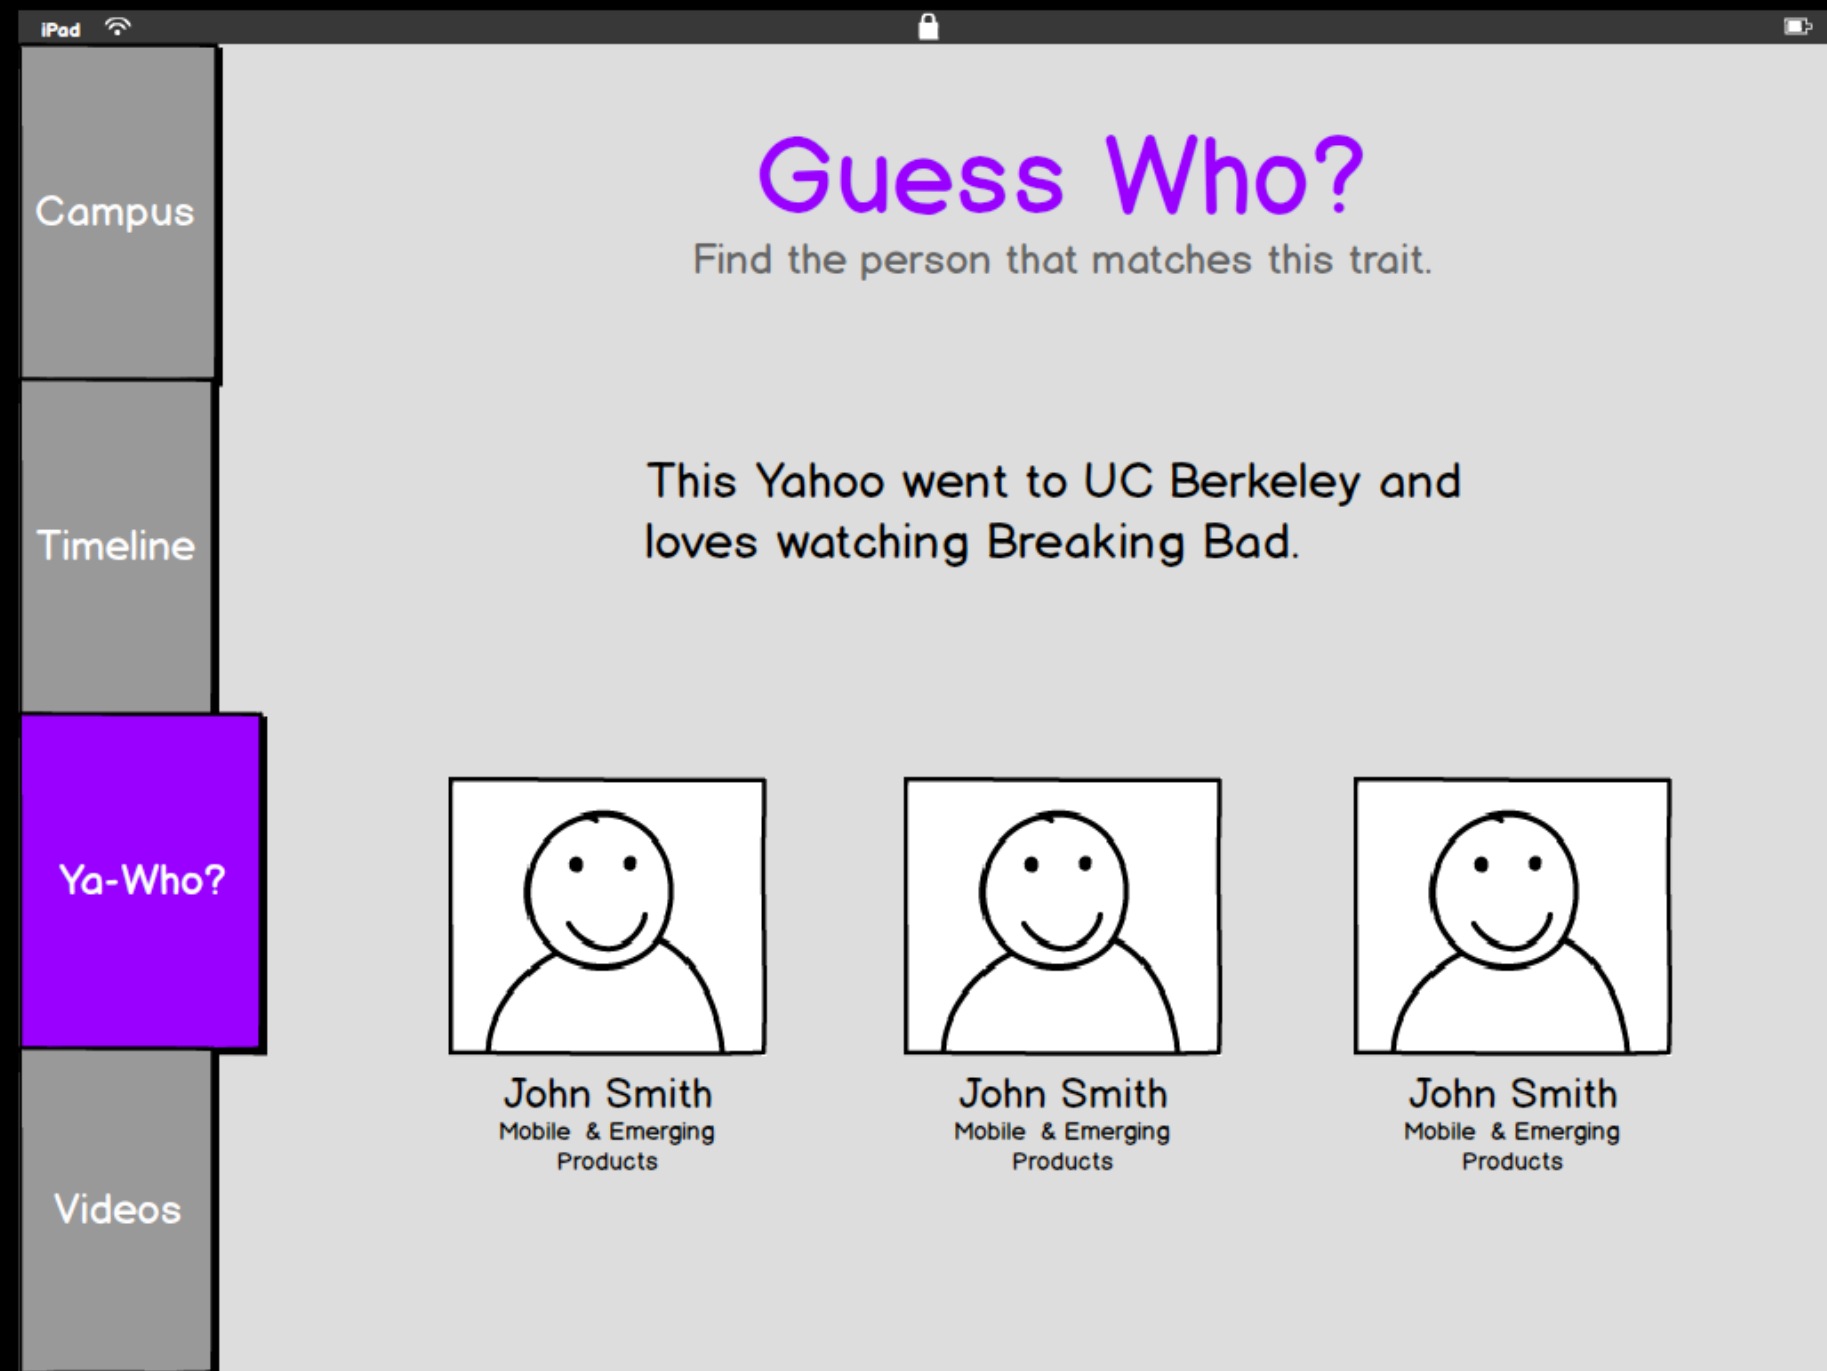

Design Note:

The timeline will end with the current date and a yearbook-style layout of portraits, names, and job titles for the incoming group of new-hires.

Timeline

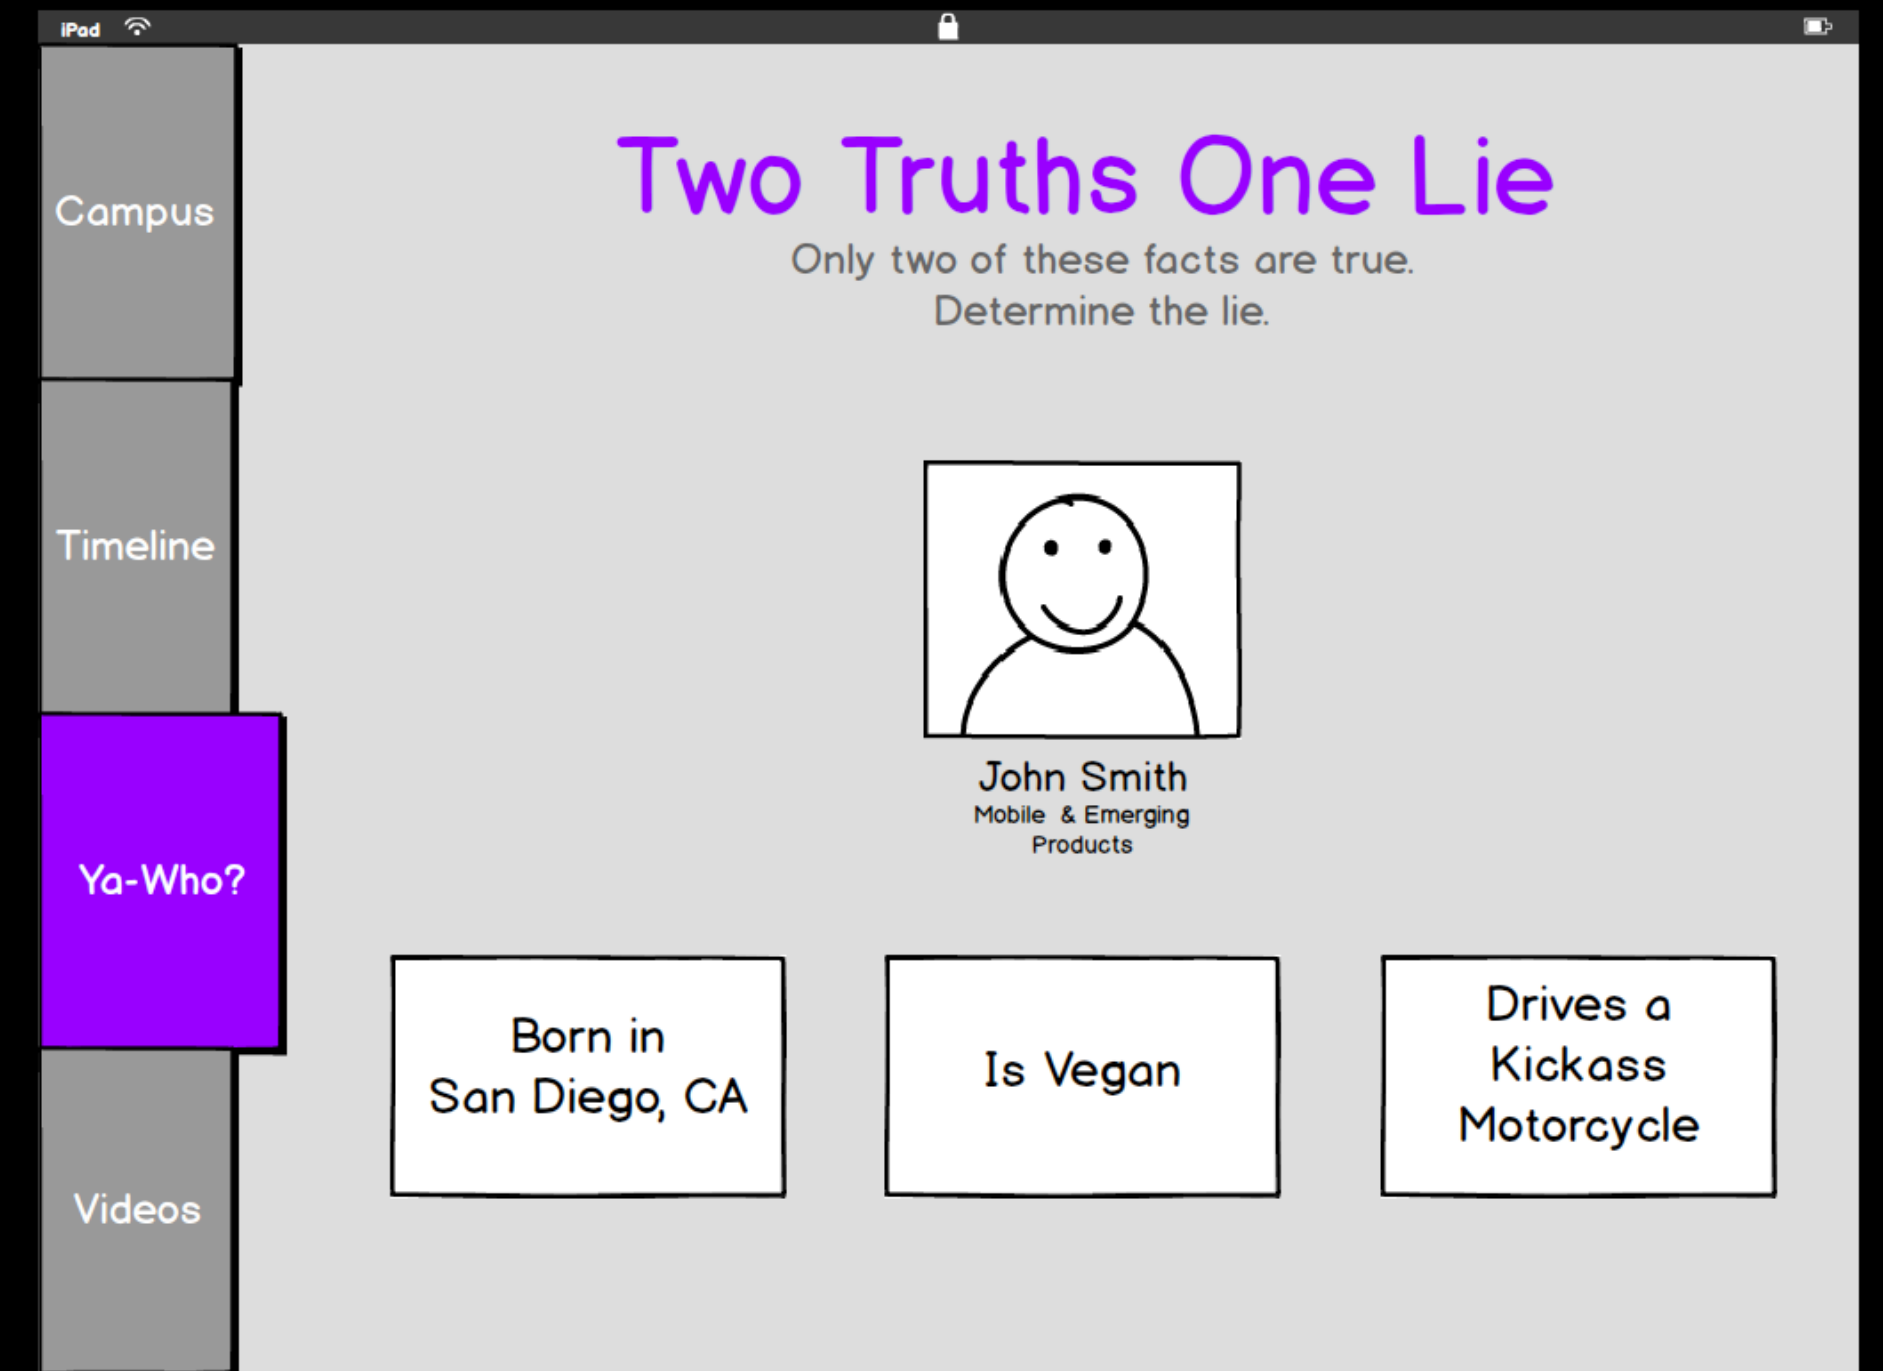

Ya-Who?

Desired Animation:

Click on any profile picture to submit your guess. The wrong answers will slide down while simultaneously fading away, leaving only the correct answer, which gets centered and slightly zooms after the wrong answers have fully disappeared.

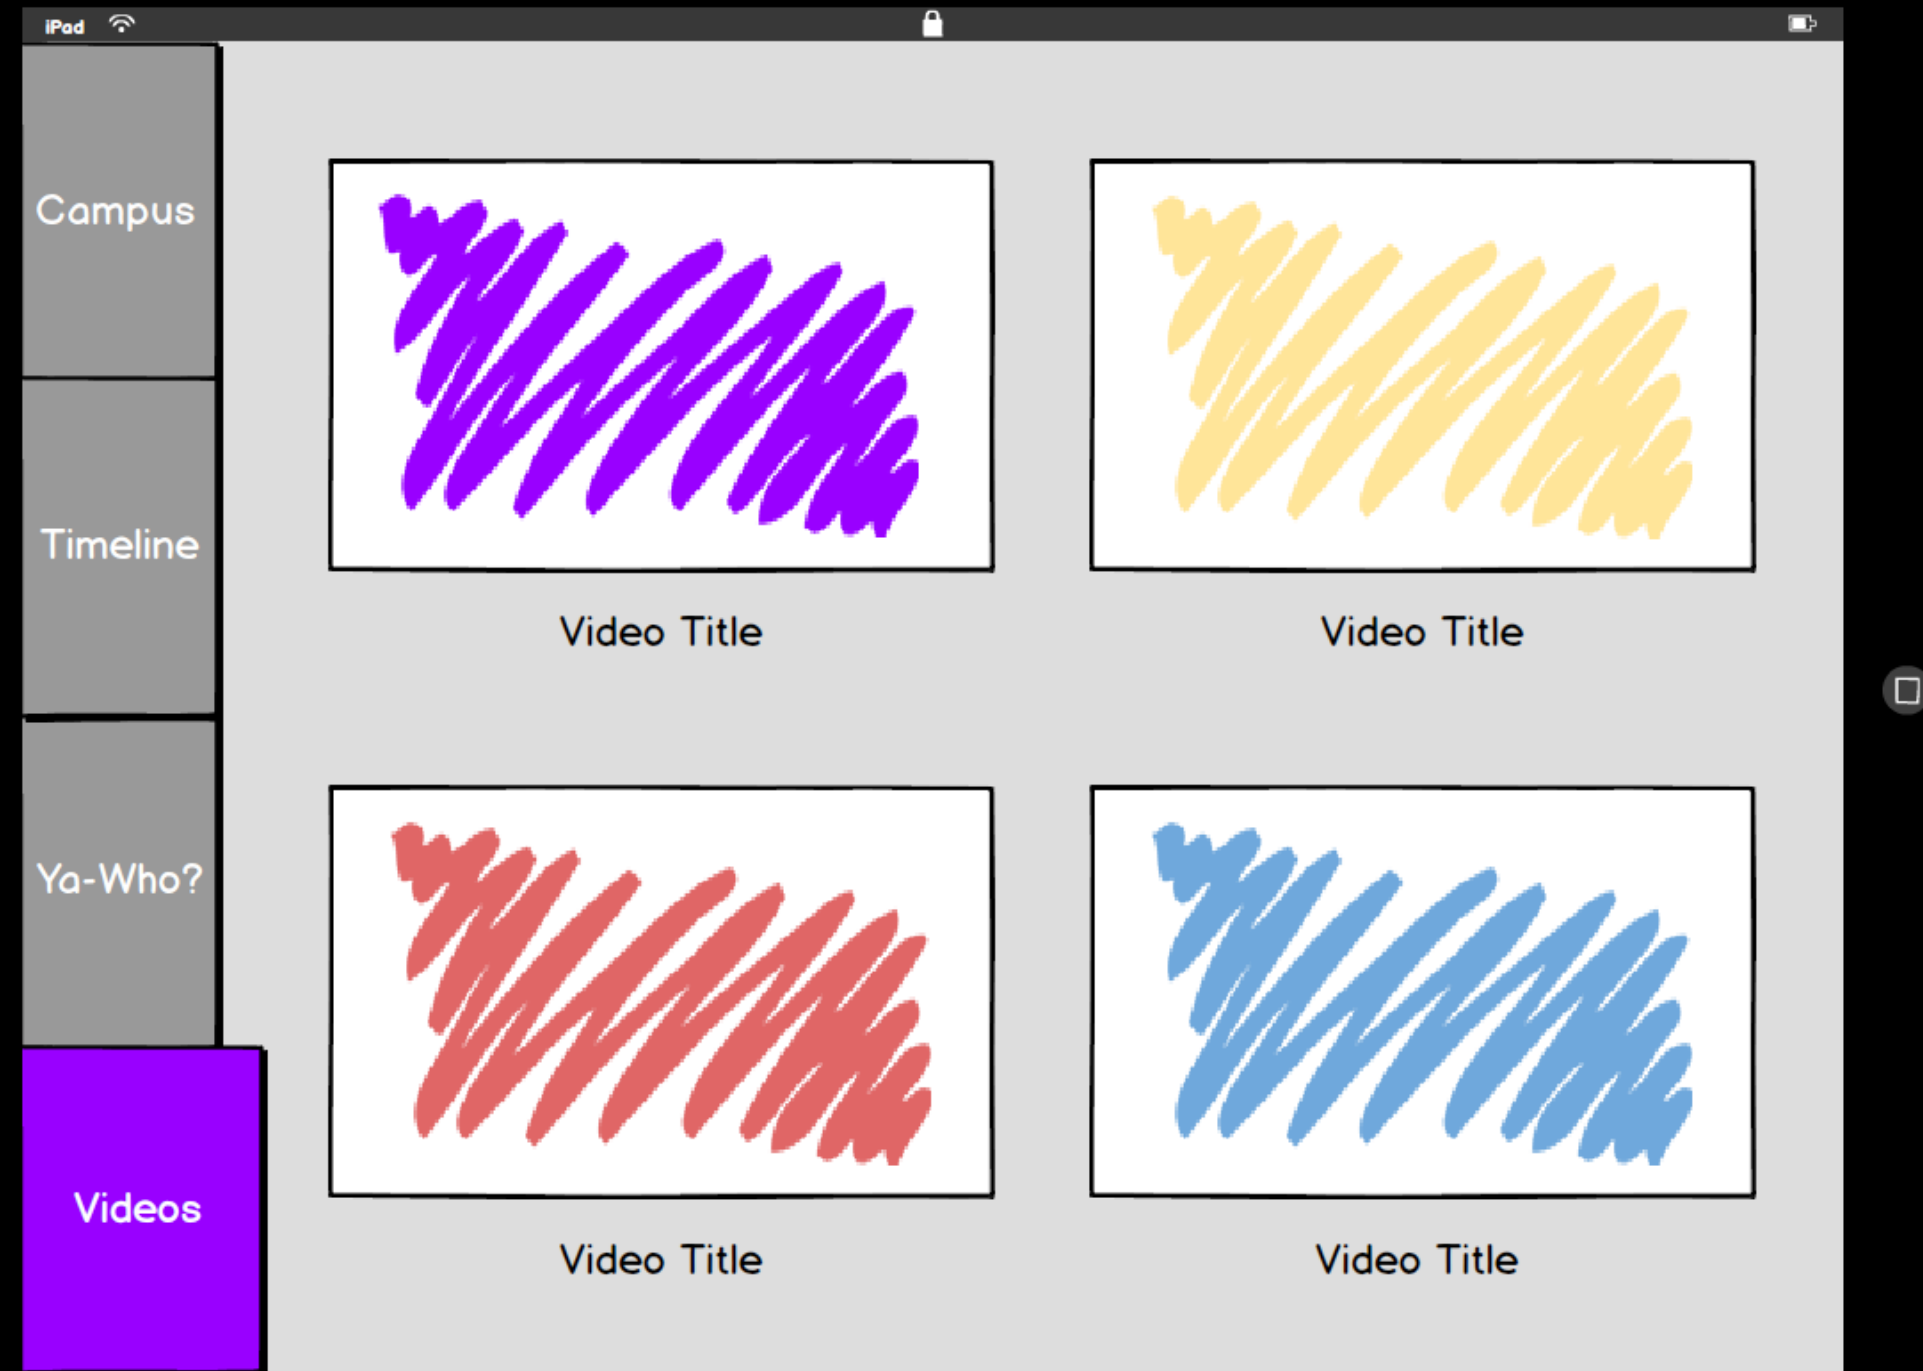

Ya-Who?

Desired Animation:

Click on any fact to submit your guess. The first true fact will fade into green, then the next true fact, and then finally the lie will fade into red. The idea is to add suspense to the answer.
